

MODEL 9SDE

QUIK SPRAY®

REMOTE CONTROL RETRACTABLE HOSE REEL SYSTEMS

- ✓ SAVE TIME AND MONEY
- ✓ SAVE LABOUR
- ✓ REDUCE FATIGUE
- ✓ REDUCE FRUSTRATION
- ✓ IMPROVE SAFETY
- ✓ AUSTRALIAN MADE & OWNED

This heavy duty single reel Quik Spray® has the extra power needed for multiple spraying activities in rugged conditions. Designed to run easily for long hours, the model 9SDE is perfect for contractors, councils and just about anyone who is serious about their spraying.

This system has a large 9HP motor with a high pressure/low volume pump with 54 or 74L/min capacity. This makes it ideal for operating large booms, long lengths of hose or even additional hose reels. The retraction is very powerful, and is strong enough to assist the operator up steep slopes if required.

The special 'Supa-Slip' high strength nylon hose used on all Quik Spray® units is lightweight, kink-resistant and specifically designed to withstand harsh Australian conditions. These units can also hold up to 200 metres of hose, to get to those hard-to-reach areas.

The benefits of using a QUIK SPRAY® ensure that it will pay for itself in a very short time!

UNIT SPECIFICATIONS

Single reel with radio control retraction
Reliable 9HP Honda OHV motor
10 amp electric charge coil
High quality Bertolini pump (54 or 74L/min 580psi max)
100m 'supa-slip' nylon hose 10mm ID 1000psi BP fitted
standard - up to 200m can be fitted
4 Outlet pressure controller in bar and psi
12V battery charged by Honda motor

Hard powder coated framework with slip-on capability and bolt down plates

Tanks available: 200L to 2000L

DIMENSIONS (without tank)

Overall
Length: 950mm Width: 1130mm Height: 740mm
